- Financial Health
- Personal Resilience
- Psychological Health
- Physical Health
- Mental Health

Supply Chain North East brings together four key partners to work with over 800 businesses through to 2021, supporting them to identify opportunities in new and existing markets. An integral part of the North East Strategic Economic Plan, that has a vision to create 100,000 more and better jobs between 2014 and 2024. Supply Chain North East is delivered across the region by RTC North, Generator, North East Automotive Alliance (NEAA) and North East Process Industry Cluster (NEPIC).

Supply Chain North East is a multimillion programme aimed at revolutionising the way SMEs diversify their offering and embrace new markets. The programme has received more than £3m of funding from the England European Regional Development Fund, which is part of the European Structural and Investment Funds Growth Programme 2014-2020.
